WASHA LLC

COMPUTER SYSTEMS DESIGN | AI & DATA AUTOMATION

Scientific & laboratory equipment sourcing for government customers

UEI: MBE1UAZCW5Y4 | CAGE: 8DFK7 | SAM.gov: Active

COMPANY OVERVIEW

Washa LLC is a small business focused on **computer systems design, AI-assisted workflow automation, software development, data processing,** and **specialized equipment sourcing**. Its technical work connects applications, cloud services, APIs, and business processes. Washa also brings demonstrated experience supporting a federal laboratory-equipment requirement.

TECHNOLOGY CAPABILITIES

- **Systems design & integration:** Cloud-based workflows, API-connected applications, business-process automation, and application integration.
- **AI-assisted document workflows:** Structured verification, exception identification, human review, and traceable decision support.
- **Data engineering & analytics:** Data acquisition, ETL, quality checks, reconciliation, reporting automation, and repeatable datasets.
- **Microsoft-centered solutions:** Azure, SharePoint, Power Apps, and Power Automate workflow and collaboration solutions.
- **Application development:** Custom software prototyping, testing, validation, and development of software-based products.

FEDERAL PAST PERFORMANCE

U.S. Department of Agriculture (USDA) — Agricultural Research Service
Contract: 1232SA25P0493 **Value:** $157,220
Period: September 25–December 18, 2025
Laboratory-equipment supply requirement; supplier coordination and federal procurement execution.

DEVELOPMENT INITIATIVES

Current in-house projects include an **AI-assisted beverage-label precheck** workflow and **scientific procurement analytics/data automation** products. These are development and commercialization initiatives, not representations of completed government software deployments.

CORE SUPPLY SERVICES

- Analytical and laboratory equipment sourcing
- Specification-based product research and matching
- Supplier and manufacturer coordination
- Technical supply and procurement support

WHY WASHA

- Founder-led responsiveness and direct accountability
- Technology and technical-supply experience
- Evidence-oriented validation and quality checks
- Documented federal award experience

NAICS CODES

Primary: 541512 — Computer Systems Design Services

Other relevant: 541511, 541519, 513210, 423430, 423450, 423830, 423840

SELECTED PSCS

DA01 Application development support
DA10 Application-development SaaS
6630 Chemical analysis instruments
6640 Laboratory equipment & supplies

ENGAGEMENT FOCUS

Federal prime contracts, subcontracting, and commercial projects in systems integration, workflow automation, software/data solutions, and specialized scientific equipment supply.
